

## Project Fact Sheet

# AEROPORTO INTERNACIONAL TANCREDO NEVES, BELO HORIZONTE

### Project Summary

Tancredo Neves International Airport (CNF) is located in Eastern Brazil in the state of Minas Gerais. It is part of municipality of Confins, approximately 40 kilometres north of the city of Belo Horizonte and serves Brazil's 3rd largest urban agglomeration of 5.5 million citizens. Currently the airport is ranked 5th in Brazil based on its 10.3 m passengers (2013) and 8th based on flights movements.

As part of the 2nd wave of Brazilian airport privatizations, Zurich Airport's consortium won the auction in late 2013 for a 30-year concession period to commence upon operational takeover, expected in August 2014.

CNF intends to strengthen its position as a major domestic hub with an expected 4x increase in passengers over the next 30 years. A significant airport extension is envisaged to cope

### Milestones

2013	Announced winner of privatisation tender
2014	Concession Agreement signed
2014	Operational takeover
2016	Opening of new terminal

### Involvement of Zurich Airport

Zurich Airport holds a 25% stake in the private consortium with Companhia de Concessões Rodoviárias (CCR), a Brazilian infrastructure concessionaire company. The private consortium controls 51% of airport with the remaining 49% held by Infraero, the Brazilian state-owned airport operator.

Zurich Airport advises CNF in commercial and operational matters and has nominated the Operational & Commercial Officers.
